My Portfolio Web Site: yuta-developer.tech

PROFESSIONAL SUMMARY

Over two years of experience in a web development department as a network engineer. Currently building a strong foundation in HTML, CSS, JavaScript and modern frameworks such as React and Next.js through a Front-End Development program at a career college. Strong problem-solving skills and eager to learn new technologies. Proven ability to work independently with great attention to detail. Seeking an IT-related position to leverage my skills and contribute effectively to a dynamic team.

SKILLS

Attention to detail | Time management | Networking | Adaptability | Problem-Solving | Customer Technical Support | Multitasking | Social Media Expertise | Priority Setting | Video Filming and Editing

WORK EXPERIENCE

Network Engineer, Japan, Tokyo

Feb 2012 – Feb 2014

Logic factory Co.,Ltd.

- Managed and maintained over 100 servers running on the Linux operating system.
- Monitored network performance and troubleshooted any issues that arose.
- Configured and maintained network hardware, including routers, switches, firewalls, and wireless access points.
- Assisted in the design of local and wide area networks.
- Oversaw the deployment of OS updates and security software enhancements for all company computers, ensuring system integrity and protection against threats.
